LONDON, October 24.—(By the United Press)—Great Britain today sent a note to Russia demanding that the Soviet government immediately order the Communist International, which "contains instructions to British subjects to work for the violent overthrow of existing institutions in England."

The British note encloses a copy of a letter received by the British Communist party signed by Zinoviev, president of the executive of the Communist International, which "contains instructions to British subjects to work for the violent overthrow of existing institutions in this country and for the subversion of his majesty's armed uprising."

N. & W. FIREMAN KILLED

ACIDS IN STOMACH CAUSE INDIGESTION

Create Gas, Sourness and Pain
How to Treat.

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach, and not so much because of a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food remains, causing the disagreeable symptoms, which every stomach sufferer knows so well.

Artificial digestives are not needed in such cases and may do real harm. Try laying aside all ulcerated and irritating foods and drink a few ounces of tinctured Magnesia and take a tea-spoonful in a quarter glass of water right after eating. This sweetens the stomach, protects the lining, etc., and there is no sourness, gas or pain. Tinctured Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is a most efficient remedy for stomach purges. It is used by thousands of people who enjoy their meals with no fear of indigestion.—Advertisement.

COOLIDGE OUTLINES HIS PROGRAM OF GOVERNMENT

Wars Against Radical Changes; Pledges Economical and Conservative Administration If Chosen By People

WASHINGTON, D. C., October 24.—(By the Associated Press)—President Coolidge set forth tonight his policies of administration under which he proposes, he said, "the historian will find close the chapter with the comment that the people had shown that they were incapable of self-government and the American republic had proved a failure."

In the last extended address he expects to make before election and the comprehensive he has delivered since his speech accepting the Republican nomination, the president declared his stand on practically every phase of government affairs. He discussed campaign issues, in some instances for the first time.

Mr. Coolidge spoke before the Eastern Division of the Chamber of Commerce of the United States meeting here in the chamber's new building and his address was carried by radio to almost every section of the country.

Nation Fairly Prosperous

Summarizing the administration's program which he said had "brought us era of more than average prosperity," the president called attention that despite the "natural suspicion that every well-wisher of the country would be anxious to maintain the present established order of things," there are now proposed "at least two of the most revolutionary changes"—government ownership of transportation and installation of the powers of the supreme court.

Public ownership, he described as a most perilous undertaking, both to

the welfare of business and the independence of the people." If powers of the supreme court were limited as proposed, he said, "the historian will find close the chapter with the comment that the people had shown that they were incapable of self-government and the American republic had proved a failure."

Mr. Coolidge said further reduction in federal taxes was possible on the basis of the estimated government budget for next year, and he outlined his "common sense" method of taxation:

Common Sense Taxation

"Getting all we can out of the rich by making the rates moderate and stimulating business to provide work and increase the earnings of the poor."

In foreign affairs the president proposed co-operation in the interest of peace, declared for constitutional control of outgoing aggressive warards, and reaffirmed his proposal for adherence to the permanent court of international justice. He announced opposition, however, to participation by this government in international conferences discussing questions of "purely our own domestic affairs," in the cancellation of war debts owed this nation and to the entrance of the United States into the League of Nations.

No other "sound and practical" policy in foreign affairs has been presented, Mr. Coolidge declared, adding that "we have been willing to assume the responsibility for leading the nation and the world in this direction, without first seeking through a costly, futile, and

unconstitutional referendum to find out whether it would be popular?"

Ready To Aid Farmers

In agriculture, the president said, he was ready to open the investigation into farming conditions he had proposed as a means of determining a legislative program of aid. This had been withheld temporarily, he said, at the advice of farm leaders, lest the investigation become involved in partisan politics.

Recalling benefits he had secured from the existing tariff law, Mr. Coolidge insisted there without a protective tariff, "American industry cannot exist. American wages cannot be paid, the American standard of living cannot be maintained."

The address, in part follows:

"This is an organization formed to promote the economic welfare of the United States. In its purpose it is thoroughly representative of American life. It is my opinion that a true economic development of our country can only rest upon the broad foundation of ministering to human welfare. It must contribute to peace abroad, and must be supported by security, industry, economy, charity, education and religious convictions at home. It cannot thrive upon sectionalism or privileges, but must take into consideration all quarters of the land and all the elements of society."

Favors Arts of Peace

"I am in favor of all the arts of peace, but I cannot be oblivious to the fact that the most miserable failure which a government can inflict upon people is a lack of order and security. Unless a government be strong enough to maintain public confidence in the observance of the orderly processes of law, we not only have no economic development but an immediate cessation of all enterprise and a substantial destruction of all values. We must have local police protection, supported by such an army and navy as will insure domestic tranquility at home and a wholesome regard for the rights of our citizens abroad. We do not maintain armed forces as a threat or menace to any except wrong-doers. With us they are purely instruments of peace and good order."

"We have a well defined foreign policy known of all men who will give it candid consideration. It has as its foundation peace with independence. We have abstained from joining the League of Nations mainly for the purpose of avoiding political entanglements and committing ourselves to the assumption of the obligations of others which have been created without our authority and in which we have no direct interest. Under our constitution, we cannot, by treaty or pledge limit the future action of the congress. But we have not refused to help, we have not refused to act, whenever circumstances have arisen under which we could render assistance."

Closes Treaties As Examples

"An outstanding example of such action on our part are the treaties which resulted from the epoch-making Washington conference. Another is our participation in the London conference which resulted in the adoption of the Dawes plan for the financing of which our private citizens subscribed many times over the amount necessary to float the German loan. All these acts have been practical, effective methods, for the restoration of Europe. We propose adherence to the permanent court of international justice, under any desired conditions or limitations which may seem practical and which is reasonably can be anticipated would be agreed to by other interested nations. Such action would give our support to a tribunal before which we could never be brought without our consent, but which international disagreements could be voluntarily submitted."

"We stand committed to the policy of international conferences, as specific occasions arise, to consider definitely stated international problems, to provide further limitation of armaments, and to propose plans for the codification of international law. But this government is opposed to the discussion in any international body or conference of questions which concern our own purely domestic affairs. Personally, I view with favor the attempt to devise constitutional covenants which would look to the outlawing of aggressive war. We are opposed to the cancellation of the debts due to us from abroad and shall continue to seek their further liquidation."

Stands On Record

"No other sound and practical policy has been presented. In its pursuance we have maintained our ancient traditions; we have secured peace; we have limited naval armaments; we have provided a plain and furnished finances for a European settlement, and we propose to continue our efforts to promote international justice under international law; through international conferences, advancing towards the goal of outlawing aggressive war. We have been willing to assume the responsibility of leading the nation and the world in this direction without first seeking through a costly, futile and unconstitutional referendum to find out whether it would be popular. The government is willing to be judged on the result of these stupendous accomplishments, either according to the standard of

properly. Agriculture, however, not only suffered first, and in many respects most, but has been the last to recover. In spite of the fact that prices for the great staples of wheat, corn and animal products have advanced, the farmer has not been able to restore in one season the losses he has encountered in the four preceding seasons. Agriculture must be placed on a permanently profitable basis where it can enjoy economic equality with other industries.

"Much discussion has been made regarding the government policy of deflation. There has been much debate whether raising discount rates by the federal reserve board up to seven per cent was the reason for the collapse in farm values. I do not wish to consider that question. But I should like to have it made plain that this action took place before this administration came into power and whatever damage there was had already been done. It has been the policy of the present administration constantly to favor the reduction of discount rates. This has been done until now they range from three per cent to four and a half per cent. This administration has constantly sought to prevent further deflation by encouraging all kinds of business in order to restore prices of agricultural products, to a point where they would show a fair profit. The general business depression had reached its lowest depths in the spring of 1921 and since that time there has been a gradual recovery which has now spread to agricultural products."

Heavy Cut In Expenses

"The present policy of the government has been to pay off the national debt and reduce the national expenditures. Since June 30, 1921, the national government has reduced its yearly expenditures about \$2,000,000,000. It has paid off about two and three-quarters billions of dollars of its debt and reduced its annual interest by over \$130,000,000. It is estimated that the tax payers of this country, by these actions, have been relieved each day by about \$6,000,000. It is anticipated that in spite of some new items of cost the budget of next year can be reduced considerably less than the appropriations of the present year. In 1920 the per capita tax was nearly \$54, in 1921 it was under \$50, and by 1922 it should be under \$27. That means that so far as the national government is concerned the burden of taxes has been cut in two."

"A policy of economy has as its sole object the benefit of all the people. Just prior to elections a great deal of talk is made about the taxes of the poor and the rich. It can fairly be said that the national government does not tax the earnings of the poor family. Earnings of \$2,500 are entirely exempt, and on \$5,000 they would pay but \$17.50. The claim can scarcely be made that the poor are obliged to pay direct taxes to the national government. All talk then about taking direct taxes of the rich and leaving them on the poor, is simply misleading. But every student is well aware that the public in general, which is mostly made up of people of moderate means and must indirectly pay the expenses of the government.

Wage Earners Bulwark

"The great corporations, the banks,

the railroads—all the great incomes

do and must collect their money from the people. All our food, clothing, shelter and fuel pays a tax to the government, and the people who earn the wages of the nation do and must pay these taxes when they buy these necessities. This simple fact determines what must be a sound policy of taxation. It should be at a rate which will produce the largest amount of taxation from large incomes, and by doing the utmost to stimulate enterprise and business afford the wage earners ample employment with good pay, in order that they may better bear the burden of indirect taxation."

"All experience shows that a larger amount of money can be collected from large incomes at a moderate rate than at a high rate. When the rate is too high, large incomes disappear, leaving all the burden of taxes on the average earners and people of small means; getting all we can out of the rich by making the rates moderate and stimulating business to provide work and increase the earnings of the poor seems to me to be the common sense method of taxation. The estimated income and expenses of the government for the coming fiscal year indicate that we can have a further reduction in taxes. But we can only secure this result by continuing our policy of drastic economy."

Revenue From Tariff

"A very material part of our revenue comes from the tariff, which is now running at the rate of about \$560,000,000 per year. This is notwithstanding the fact that we have the lowest tariff which the Republican party has enacted since 1890 and that it is even lower than the Democratic tariff of 1894. Nearly 57 per cent of our imports are on the free list, while the average duty on all imports is less than 16 per cent. Under it, in spite of prophecies to the contrary, our foreign trade has greatly increased."

"It has been constantly asserted

that what the farmer buys is pro-

tected and what he sells is not pro-

tected. Almost everything that is

used in the business of farming as a

matter of fact is on the free list,

while almost everything that the farmer raises is protected, from the

nuts and citrus fruits of the Pacific

coast through sugar and grain of the

west, to the dairy and tobacco prod-

ucts of the east. Without such protec-

tion many of these farm products

would be destroyed by foreign competi-

"When we turn to our industrial

life, we find that the wages both in

rate and buying power of the Ameri-

can workman are more than twice

that of the best paid foreign labor.

Compared to 1913 the advance in the

wages of union labor is 90 per cent,

while in the ordinary living costs it

is only about 60 per cent. American

industry cannot exist. American

wages cannot be paid, the American

standard of living cannot be main-

tained without a protective tariff."

Business Has Revived.

"Under this policy of peace, econ-

omy, reduction of taxes and protec-

tion, the business of the country has

very generally revived and brought

us into an era of more than average

prosperity. Agriculture, however, not only suffered first, and in many respects most, but has been the last to recover. In spite of the fact that prices for the great staples of wheat, corn and animal products have advanced, the farmer has not been able to restore in one season the losses he has encountered in the four preceding seasons. Agriculture must be placed on a permanently profitable basis where it can enjoy economic equality with other industries.

Illegitimate Property

"The other property of the

nation must pay their yearly tax

of some \$600,000,000. In this

settled agricultural regions this

would make an increase of 30 per cent or

40 per cent on local taxation. Meas-

ured by our experience of efficiency

of service, by rate of wages paid, we

have everything to lose and nothing

to gain by public ownership."

It would be almost perilous undertak-

ing, both to the welfare of business and

the independence of the people.

"Another principle in which the

American people have always strong-

ly believed and which they have

stoutly maintained, is a judicial as

against political determination of

causes. When our constitution was

adopted it established the supreme

court of the United States to be the

very citadel of justice. Its mem-

bers are appointed for life in order

that they may be devoted entirely

to the administration of justice ac-

cording to law, and as independent

and impartial as it is possible for

men to be. One of their chief duties

is to protect the rights of the people

without fear of influence or pressure

from any quarter. This is to be ex-

pected of the supreme court, never made

a mistake. But if this power is

taken away from them, it is neces-

sary to prove that those who are to

exercise it would be likely to make

fewer mistakes.

Would Cancel People's Rights

"It is proposed to place this power,

which it must be remembered, is that

of life and death, in the hands of the

congress. That would give to that

body power to violate all the rights

which I have just mentioned, the

power to destroy the states, abolish

the presidential office, close the

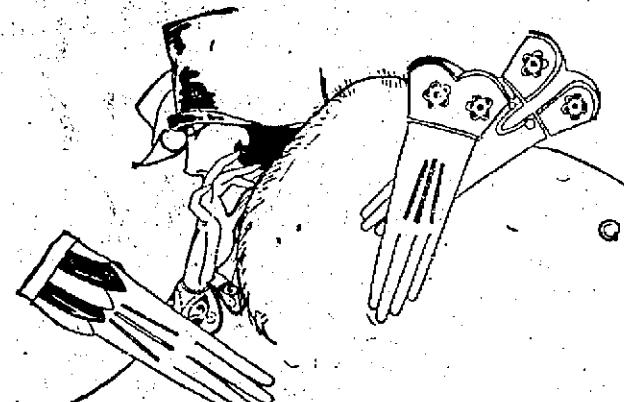

courts, and make the will of the con-

gress absolute. Is it supposed that

in the exercise of this power they

THE GREAT ATLANTIC & PACIFIC TEA CO.
"JUST AROUND THE CORNER FROM EVERYBODY"

As It Happened 24 Years Ago

(From our issue of October 24, 1900.)
Pastors and official members of all Protestant churches at a grand rally held at All Saints Church launched a campaign in behalf of temperance.

With Cropper pitching, the Naval Admirs of Cincinnati, by a score of 15 to 6.

John John Sherman, Ohio statesman, died at his home in Washington, D. C.

Barney Kelley departed for Iota Springs to join Tommy Nichols in an extended tour of Texas and Mexico.

E. E. Ewing, who for thirty years was a leading citizen of Portsmouth, conspicuous alike in business and religious circles, died at his home in San Francisco, California. Mr. Ewing was a Civil War veteran and conducted a large queenware business on Second street, which he closed out on gold to the Pacific coast in 1893.

Will S. Anders left for Indianapolis to take a position as press agent for the Indianapolis Zoo.

JAMES S. CADOT, of Lyra, brother of C. S. Cadot, of this city, died at his home from heart trouble. He was 67 years old.

Wallace Emphatically Denies He Intends To Resign From Cabinet

WASHINGTON, Oct. 24.—The department of agriculture issued a statement tonight saying Secretary Wallace, who is in a hospital here recovering from a recent operation, had authorized the "most positive denial" of rumors that he intended to resign his cabinet post.

"Unfortunate rumors of his resignation which recur with some persistence give the wrong impression to the departmental people and to the country at large," Dr. Joel T. Boone, under whose care Secretary Wallace has been for the past six weeks, today told department officials that the secretary had not talked with anyone on the matter of his resignation and had directed officials that they might make the most positive denial of rumors of his resignation."

Police Get New Lead In Officer's Murder

CLEVELAND, Oct. 24.—Having in their possession the name of a red-haired man who talied almost plaintively at the time of the blow. Nine of the two gun men who fatally shot Patrolman Michael Hahn, 28, of the Shaker Heights force, Cleveland police tonight were working on what they believed the most valuable clue of hundreds turned in since a \$10,000 reward was offered for capture of the slayers.

The man they seek has a criminal record and has not been seen since Monday night, a few hours before Hahn died of wounds received Friday night while conveying the two men to Shaker Heights police station in their automobile.

Counsel Clash Over Fall Loan In Oil Suit

LOS ANGELES, Cal., Oct. 24.—Testimony given by E. J. Doheny, head of the Pan-American Petroleum interests before the Senate investigating committee last June relative to the \$100,000 personal loan note given to Doheny by former Secretary of the Interior Albert B. Fall, was the cause today of the first heated clash between opposing counsel at the trial here of the government's suit for cancellation of leases held by the Pan-American Company in the Elk Hills naval oil reserve.

Legal argument that followed continued from the latter part of the morning session, until near the close of court when Federal Judge Paul J. McCormick ruled in favor of the government.

Cause Of Blast On Warship Still Mystery

WASHINGTON, Oct. 24.—Examination of the inspection reports of the cruiser Trenton render untenable the theory that deteriorated powder may have caused the explosion of a board which has resulted in 14 deaths, Secretary Wilbur announced today. He added that the departmental files failed to show a single accident from bad powder during the past 15 years, or since 1909 when the navy obtained a method of stabilizing all service explosives.

While the ordnance bureau has a definite theory of the cause of the catastrophe, the secretary said it would not be divulged or commented upon while the court of inquiry is sitting in the case.

Juror Gets Death Threat

Extra Guards Posted

CLEVELAND, Oct. 24.—Extra guards were posted in criminal court today when one of the jurors hearing the murder trial of Ben Beale, cripple, charged with complicity in the slaying of John Johnson, aged recluse, announced that he had received a death threat.

The juror, whose name was not made public, voted for the supreme penalty when a fire last week sent J. Hunter Charles, Beale's alleged accomplice, to the death house at Ohio penitentiary.

Two Held To Grand Jury

GREENUP, Ky., Oct. 24.—(Special) Morris Rude and Russell Parsons, two of four men charged with the assault and robbery of Lindsey Conley, several days ago, were given preliminary hearings before County Judge L. E. Nichols Thursday and bound over to the grand jury. In the course of the hearing, it was clarified that the quarrel which precipitated the assault on Conley grew out of some moonshine liquor which it is claimed was purchased from a well-known Greenup county woman, and for which it is alleged the four accused refused to pay.

County officials are investigating this phase of the affair, and it is understood action in the alleged liquor transaction may follow.

Rude's bond was fixed at \$1,700, and he put up a cash bond. Parsons' bond was fixed at \$750, which he has been unable to give, and he is being held in the county jail here.

According to testimony at the preliminary hearing, the men, after beating and robbing Conley near East Fork, this county, took him in

an automobile to Kenova Bridge, and there was evidence introduced tending to prove that the suggestion that the man be "dumped into Big Sandy" was broached.

HOTEL DESTROYED BY FIRE
MARTINSVILLE, O., Oct. 23.—The Park Hotel Annex, at Magnetic Springs this county, has been destroyed by fire entailing a loss of several thousand dollars.

HEAR YE! HEAR YE!
HEAR YE!

When in the course of human events it becomes necessary for a citizen to cast a vote on an important question; a decent respect for the opinions of mankind and welfare of society compels him to consult the matter wherein he is to vote.

The citizens of Portsmouth are going to vote on a matter of raising funds to support the public schools, in other words, to continue the present three mill levy from which practically half of the revenue of the public schools is derived. Some questions a voter might ask himself are these:

1. How many men have I heard say they wish they had quit school earlier than they did?
2. How many men have I heard say they wish they had stayed in school longer than they did?
3. On the whole do I believe that schools are useful or useless?
4. If the school year were five months instead of ten, would our schools become more or less useful than they are?
5. Can I conscientiously vote to curtail the educational opportunity of the children of Portsmouth when by voting to maintain those opportunities I am voting, not to increase taxation, but simply to continue the present three mill levy?
6. Is there any reason whatsoever for not voting "Yes"?

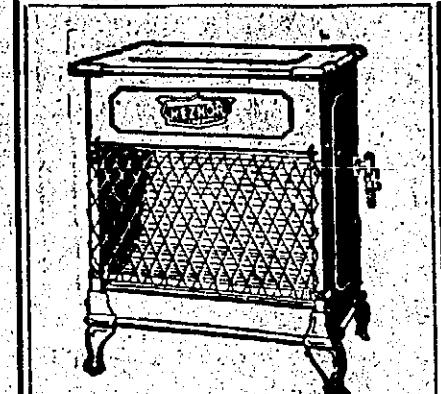

Let the voter who asks himself these questions, answer them honestly and act accordingly.

County Fair Is a Public Institution

Clyde Brant, Secretary of the Scioto County Fair, Friday explained to a Times man how the association is managed. Mr. Brant said:

The Fair is a public institution. It is not a closed corporation, nor controlled by a few self-appointed men. Any citizen of the county may become a member by simply paying \$1 which entitles that person to meet with the members at the annual meeting and vote for the directors for the next year. The membership tick-

ets which he receives also provides for free admission to the grounds.

The next annual meeting will be some time in December—and notice of this meeting will be carried in the county papers a week previous. The meeting is usually held at the county courthouse. Membership tickets may be had anytime between now and that date by writing or seeing the secretary at Lucasville. Every citizen is urged to join the organization.

Artificial Wave Launched

The Ohio river registered a pool stage of 14 feet in the Portsmouth district Friday.

Steamer Tom Green is due to pass down late this afternoon for Cincinnati.

An artificial wave was launched from Dam 31 below the city Friday morning, which enabled a number of towboats congregated there to get away with their tows of coal for delivery to down-river points.

Huntington Fire Chief Is Suspended

HUNTINGTON, W. Va., October 24.—Pending hearing of charges filed against them by O. F. Jobe, assistant fire chief, Rush Burks, chief, and his secretary, W. R. Wood, were suspended yesterday by Mayor Floyd S. Chapman.

The mayor, immediately after signing the suspension letters, appointed Captain S. R. Hatten, attached to the Central station, to assume the duties of chief until further notice.

This action was taken shortly after the mayor had been presented with a copy of written charges drawn up by counsel for the firemen against Chief Burks and Wood in connection with a souvenir book promoted ostensibly for the firemen's pension fund.

Couple Fined

Charles Coly and Elizabeth Green, colored, arrested last night in a raid on a house at Thirteenth and Waller streets on statutory charges, pleaded guilty when brought into Municipal court Thursday and Judge Sprague plastered them with a fine of \$25 and costs each.

The couple admitted they had been living in the North End for more than a year as husband and wife.

COOLIDGE HOLDS OVER 56 PERCENT OF 'DIGEST' VOTE; DAVIS PUSHES LA FOLLETTE

Davis has almost overtaken La Follette in this week's returns of the Literary Digest's nation-wide presidential poll, which are released today. Besides increasing his popular vote, the Democratic candidate has gained ascendancy in Kentucky by the week's tabulations, which gives him the leadership in twelve states.

Coolidge has 1,293,378 votes; Davis 457,782, and La Follette 496,100 of the 2,800,454 ballots now received.

Davis has brought down La Follette lead over him from 45-43 last week, to 52-24 this week, a gain of over 40,000. President Coolidge has also increased his percentage of the popular vote a fraction.

Senator La Follette's share has declined over one per cent. California and West Virginia continue in the doubtful column.

In Illinois, Coolidge is leading La Follette by 2½ to 1, and Davis by 5 to 1. The President outnumbers Davis nearly 5 to 1 and La Follette over 2 to 1 in Iowa; Davis over 2 to 1, and La Follette more than 5 to 1 in Indiana; Davis nearly 7 to 1 and La Follette almost 2 to 1 in Minnesota; and Davis by 5 to 1 and La Follette by 3 to 1 in New York.

"If this poll is any indication," The Digest states, "President Coolidge is likely to receive considerably more than a sufficient number of votes in the electoral college to

Airships To Carry Passengers Around World Soon, Claim

AKRON, Oct. 24.—Predictions that Zeppelin airships Goodyear is designing will in the next few years carry passengers around the world in greater comfort, and safety and with much greater speed than is possible for the greatest ocean liner was made here tonight by Captain Ernst A. Lehmann, vice-president of the Goodyear-Zeppelin company and pilot of the ZR-3 on its history making trip across the Atlantic. The ships, Captain Lehmann said would be one thousand feet in length, and would be powered and made more nearly "fool proof" by a new high speed, heavy oil motor, which is receiving its final tests in the Maybach Motor Works in Germany. They will be inflated with helium gas.

SOCIETY

The W. W. G. of the Central Baptist church will hold a meeting this evening in the Ladies' Parlor of the church. At 7:30, the regular monthly business meeting will be held, after which the first chapter of the study book will be dramatized, with Mrs. A. K. Wheeler, the counsellor, in charge; assisted by Miss Lillian Cornette and Miss Daisy Cooper.

The hostesses for the social hour will include Miss Fern Curry Wheeler, Miss Ruth Davis, Miss Lucille Cornette and Mrs. Zelma Goodman. The social hour will be held in the church basement.

The Woman's Missionary Society of the Franklin Avenue M. E. church held a meeting last night at the home of Mrs. Phillip H. Hudson on Lincoln street.

Mayor and Mrs. Ralph Calvert of Second street have as guests Mr. and Mrs. Emerson Clark and children, Mary Katherine and Louise, and the former's mother, Mrs. John Clark of Springfield, Ohio, who arrived yesterday.

The Eastern Stars will give a dance next Wednesday evening in Baesman's new dance hall, Gallia and Bond streets. All members and all Masons and their wives are cordially invited to attend.

Mrs. R. B. McCarthy spent yesterday in Ironton, the guest of Mrs. E. Leyman.

Miss Christine Everly spent Thursday in Ironton, the guest of her aunt, Mrs. E. L. Phillips.

The Misses Anna and Emma Hotz have returned from a visit with Mr. and Mrs. Henry Rudman of Ironton.

Mr. and Mrs. John Wentz of Fourth street have as a guest Mr. Ben Schrand of Cincinnati.

The members of St. Mary's Social Club were delightfully entertained on Thursday afternoon at the Ardell Tea room on Sixth street, with Mrs. Albert Miller as hostess. Five hundred provided diversion during the afternoon and handsome trophies for scoring were given to Mrs. Albert Semmelbeck and Mrs. Frank Steppé, of the club members, and Mrs. W. L. Questel received the club favor. A luncheon of lovely appointments was served at the small tables to the following members: Mrs. Frank Bluhm, Mrs. Frank Graf, Mrs. J. J. Orlett, Mrs. Albert Semmelbeck, Mrs. P. Petry, Mrs. George Pfleifer, Mrs. Charles Sauffer, Mrs. Frank Steppé, Mrs. John Vogt and Mrs. M. Holtzman.

The members of Division B of the First Baptist Society held a very interesting meeting at the home of Mrs. W. M. Pollick, 1816 Twelfth street.

During the business session arrangements were made for this division to entertain the General Society on November 6th, at the home of Mrs. Arthur Duer, 1406 Ninth street. The new officers were elected for the coming year and resulted as follows:

President—Mrs. A. N. Duer.

Vice-President—Mrs. W. V. Miller.

A captivating personality as well as a program of delightful piano numbers and readings won the audience at Bigelow M. E. church last evening, when the members of Mrs. J. J. Rardin's class presented Miss Faye Ferguson in recital.

Miss Ferguson's reputation as a pianist has already been established in Portsmouth, and her charming selection of readings has proven her ability as an entertainer.

Miss Ferguson has recently finished her course in piano under Marcel Thalberg of the Cincinnati Conservatory of Music and her appearance on the concert stage throughout the country is being followed with great interest by her Portsmouth admirers.

In her first selection, "Rondo A. Capriccio" from Beethoven, Miss Ferguson's rendition brought out the description of the title "The Wrath Over a Lost Penny."

Eduard F. Major, Opus 25, No. 2, Chopin in a spirited "Caprice," full of charm, buoyancy and sweetness. Her interpretation of the name of "Abegg" was remarkable, the composer notes spelling the name.

The program of the evening follows:

(b) Variations on the name of Abegg Schumann

2. Reading Lucy Edson's "Four to Six"

3. Piano (a) Nocturne Opus 27, D flat Major

Workingmen

(Continued from Page One)

and results indicate that the workingmen have been scared away from La Follette and into the Coolidge camp with genuine effectiveness.

In a chemical plant in this section, about 200 votes were cast. All but one voted for Coolidge. The four ballot boxes for La Follette were cast for Davis. Now these things sometimes happen in a small group where there is an opportunity for an urgent appeal to be made which will sway the group. But when it happens in large numbers, it means that someone has told the workingmen why it is to their interest to vote a certain way.

Employer Makes No Bonuses About It.

The employer in question made no bones about it. He felt he did nothing more than exercise his American right to advise his employees how they ought to vote. And he sincerely believes that a vote for La Follette is a vote for chaos. He is convinced that an election thrown into the House of Representatives means business uncertainty, the stoppage of credits and a general restraint which may mean shutting down his plant. Feeling that way, he wants La Follette beaten and Coolidge elected.

What happened in the plant referred to has been happening throughout the state. The writer heard the same story in industrial Trenton. It is quite common in manufacturing states on some occasions. But it did not happen to any extent in 1920 nor in 1916. This year, the La Follette bogey has done more to stimulate the conservatives and the manufacturers generally than anything else.

The tariff has been trotted out as bearing upon the wages of the workmen and many of them are convinced they would be adversely affected if the tariff were tinkered with.

Apart from the strength of the Coolidge-Dawes ticket in manufacturing circles, the banks have gone into the campaign most energetically. Again the fear of La Follette has been raised. Davis was not talked of. There is no antagonism to him. It simply is reiterated that the safest way to vote is for Coolidge. Among professional men and others who think their pocketbooks may be affected by the throwing of the election in the House, the drift to Coolidge has been noticeable for several weeks.

But while there are affirmative reasons why many voters are going to vote the Republican ticket nationally,

THIS NIGHT*may convince you*

some that he had gained. Mayor Frank Haras of Jersey City, who bosses Hudson county has rolled up his shirt sleeves and is really working hard for Davis. He will save him from the bad beating he might have gotten but even the resourceful Hague will not recover the votes that have been turned toward La Follette. The third party candidate will cut into the Democratic vote more heavily than into the Republican vote.

Coolidge's Silence on Klan Helping Him

President Coolidge's attitude on the Klan—silence—is not helping him here but those who feel resentful about it are more likely to vote for La Follette than Davis, though there will be some acquisitions to Davis from the Republican ranks on this score.

For the Democrats have not succeeded in showing a definite relationship between the Coolidge policy of silence and the Klan itself. The letter given out by C. Bascom Slemp, the president's secretary, saying the president was not a member of the Klan nor in sympathy with its objects is being used wherever the Klan question appears vital in keeping Republican votes.

Mostly the state is in the grip of conservatism—the doctrine of things as they are. The contest for U. S. senator is stirring up even more interest than the presidential race. Walter Edge, former governor, and present possessor of the senatorial logo, won a bitter primary fight in which he took the "wet" side. There appears no doubt that Democrats of the "wet" variety went into the Republican primaries and helped him win. The Democrats, nominated Mayor Donnelly of Trenton, who is swing "wet" compared to Edge. He denounces the Klan every hour in the day, while Senator Edge maintains a policy of studied silence.

Senator Edge is popular. He is very strong in South Jersey, which is usually Republican, anyhow. He needs North Jersey to win. The other day he exacted ruling the name of the Rev. James K. Shields, dry candidate in the primaries, was ordered retained on the ballot. The Donnelly supporters were jubilant. They think it may mean 25,000 votes for Shields that night otherwise have gone to Edge as the choice of the two principal candidates. And 25,000 votes in a close election is nothing to be ignored. But is it close? Senator Edge will profit by the Coolidge wave. A landslide for the top of the ticket would put him through without any trouble. The Republican managers think they are conservative when they say Coolidge will win by 100,000 votes. If he wins by half that they will be satisfied, but it is not so certain that a 50,000 lead would still Edge through. Anything larger than that would mean the re-election of Edge. But the state is in a Republican mood, notwithstanding a drift in the last few days toward Davis, which comes too late to swing the electoral vote, especially with La Follette in the race to draw so much from the Democratic party.

ANOTHER SUSPECT BEING HELD IN NEW BOSTON MURDER

Hubert Carver Is Arrested; Bowling Says Clothing Found Belongs To Him; Says They Were Stolen Off His Porch

Arrest of Hubert Carver, single, 26, was sent to the manufacturer in the East, asking for a record of the sale of the gun. Today a telegram was received, stating that the gun was sold at a firm on Pearl street, New York City. An effort will be made to obtain the firm's record of sale of the gun.

Harry Lee, a young, well-known in New Boston, was arrested as a suspect last night when officers were told he left town Tuesday night and had stayed away several days. He proved he hadn't bothered anyone.

Bowling, who was being held in a solitary cell in the New Boston prison, has defied the most careful questioning, meeting all officials with the same statement: "You ain't got nothing on me."

When arrested, Wednesday night by Chief of Police Ollie Cassidy, Bowling declared: "You ain't got nothing on me. I can prove an alibi."

And through the long hours of questioning, he has stuck steadfastly to his denial of any connection or complicity in the crime.

In his attempts to prove an alibi, Bowling has told numerous stories, the officials say, and they have checked them all up.

Strange Chevrolet Scene. His arrest this noon by Marshal Ollie Cassidy and Deputy Arthur Onkes took place on Munn's Run, while the officers were on their way back to the village from a visit to the young man's home in Hinsdale Hollow, about two miles from the village. The visit to the Hollow was to obtain information from residents concerning reports that a strange Chevrolet roadster had been up the Hollow the night of the murder. The machine is said to have appeared in the Hollow about 8 o'clock and left about 12 o'clock on the night of the murder. Two men are said to have occupied the machine and they told residents to whom they talked they were out with a couple of dogs in an effort to "junk" a fox. The men had never been seen in those parts before and as the road is a lonely one and seldom traveled by strangers, their appearance aroused suspicion after residents learned that a Chevrolet roadster was being sought by the police.

Carver Not Questioned. Carver was not told why he was arrested and he did not ask the officers why he was being taken into custody. He was placed in the upstairs cell at the village jail, being admitted through a rear window without the knowledge of a crowd of "hangers-on" about the mayor's office. On account of the interest of the hour and the fact that officers were planning to attend the funeral, Carver was not asked any questions this noon.

The Constant Cigarette. Bowling sits in his cell, constantly smoking, lighting one cigarette after another. Cigarettes seem to be his only demand, and he rarely eats them. The prisoner is very nervous, and paces up and down much of the time.

Yesterday, when taken to view the remains of the victim, and when taken to the scene of the crime, he exhibited signs of extreme nervousness.

Have Color In Cheeks

Be Better Looking—Take Olive Tablets.

If your skin is yellow—complexion pallid—languid, colorless, appetite poor—you have not had the right kind of diet, no good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel were prepared by Dr. Edwards after 17 years of study.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their orange tint.

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause.

Dr. Edwards' Olive Tablets act on the human bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. Take one or two nightly and note the startling results. Millions of cases are sold annually at 10c and 30c. Advertisement.

Wednesday after the revolver, a 35-calibre Colt's positive was found and the number obtained, a telegram

ness, although sticking closely to his story.

"If you had killed a man, how could you look at his dead body without pangs of conscience?" the prisoner was asked as he gazed upon the remains of Mr. Funk.

"O, that won't bother me, any. You haven't got anything on me," was the reply.

Defies Interrogators

Yesterday, throughout the long hours of questioning, Bowling not only stood off his questioners despite their success in tripping him up in his stories, but in one instance, "showed his teeth", and lost his temper in a flash of defiance.

"You're a d—— liar!" he cried in angry response to a statement made concerning his whereabouts when officials were checking up his story in one particular.

Each time, as his "alibis" were shot to pieces by police officials who immediately checked up on them as soon as they were "sprung" by the prisoner, Bowling accepted his defeat nonchalantly, continuing to maintain his innocence.

Allowed Good Night's Sleep. At the end of a weary day, yesterday Mayor Bierley ordered the prisoner returned to his cell, and proclaimed a night of rest for everyone concerned in the investigation.

Throughout the day, yesterday,

La Follette Says Wall Street Would Not Dare Stage Panic If He Is Elected As Pen Stares It In the Face

LA FOLLETTE SPECIAL, EN-ROUTE TO SYRACUSE, DETROIT, October 24.—(By the Associated Press)—As he traveled eastward today from Grand Rapids, Mich., where he spoke last night, to Syracuse, N. Y., where he is scheduled to deliver an address tonight, Senator La Follette, independent presidential candidate declared in a statement that "it is being whispered about by bankers, railroad operators, industrial trusts and the press controlled by them, that should La Follette be elected, there will be a panic, that credit will be shortened." This same old bluff has been used at

this stage of every campaign in which there has been a "real issue," he continued. "In 1912 when Woodrow Wilson was a candidate, the financiers and trust magnates threatened that if he was elected there would be a panic. He was elected and there was no panic. They have used it in state elections. They have even used it in city elections. It is a sure sign of reactionary distress."

"I do not question the power of Wall Street to produce a panic but I do challenge their courage to put through the conspiracy which they proclaim.

with the penitentiary staring them in the face.

"Panics have been brought on by the banks. The banks have it in their power to control the industrial life of America and to bring on depression. And they now are boasting that they have it in their power to control the way men should vote as well.

"I intend to meet treason, bribery, and terrorism as my other crime against the state should be met."

"I intend to meet treason, bribery, and terrorism as my other crime against the state should be met."

"I will go further than that. There are hundreds of millions of public money in the treasury. They are deposited in private banks. There are hundreds of millions of postal savings which are also deposited in the national banks. There are other millions of which the government is trusted which are deposited in national banks.

"I will go further than that. Under the federal reserve act, banking is a quasi-public business. It is under government supervision... Our credit resources are assumed to be agencies of relief rather than of plunder. They

will go further than that. There are hundreds of millions of public money in the treasury. They are deposited in private banks. There are hundreds of millions of postal savings which are also deposited in the national banks. There are other millions of which the government is trusted which are deposited in national banks.

"I shall instruct the proper agencies of the government to remove such funds from any banking institution that makes war on the free voice of the people in this way."

Mrs. W. D. Tremper Dies Suddenly From Pneumonia

With the passing of Mrs. Mary Todd, Kyr., March 25, 1851. In Tremper's wife of Dr. W. D. Tremper, 1880 she was united in marriage to William D. Tremper and for the last two years he had been another of that always narrowing circle of old town residents. Mrs. Tremper's death came very suddenly and was due to pneumonia which set in Wednesday following a slight illness from a cold contracted on the train as Mrs. Tremper was returning last week with her husband from a visit to California.

Hardly any of Mrs. Tremper's friends knew of her illness and the news of her sudden death will come as a gory blow to them. She had long been one of the city's most gracious women and the news of her passing will elicit many expressions of sincere regret. She was ever an affectionate wife and a dutiful mother and will be greatly missed.

Mary Todd Hayman, daughter of Mr. and Mrs. H. H. Hayman was born in

the mother of thirteen children, but only six of them survive to mourn her death. She was tenderly cared for during her declining years by her youngest daughter, Miss Ella Kennedy, who remained at home with her mother. Mrs. Kennedy was a sister of the late Thomas Timmonds, for many years a well known resident of John street, and of the late Mrs. Christy Flanagan of Wick Run. Mrs. Hannah Flanagan of Wick Run, Mrs. George Blilian of Sclato, Trull, Mrs. Margaret Farrell, and Miss Julia Timmonds of Brown street are nieces of Mrs. Kennedy. The family left this country about thirty years ago and Mr. Kennedy died about fifteen years ago. The funeral will be held tomorrow morning in Newport with interment in that city.

Kepner H. Taylor, Sr., Funeral. Funeral services for Marcus A. Goodman, who died at his home in Hamilton Tuesday from an attack of heart trouble, were held from his home in that city Thursday afternoon. Besides his widow he is survived by three brothers, Otto Goodman of Valparaiso, Ind.; Archibald and Louis Goodman of Binghamton, N. Y.

Mr. Goodman was quite well known in Portsmouth, having been one of the founders of the Salvage store here.

Charles Baker

JACKSON, October 24.—Charles Baker, who suffered a stroke of paralysis at his home on East Main street, passed away Wednesday. He would have been 52 Saturday, October 25, and was a well-known Jackson citizen. He is survived by his wife, two sons, Wally and Fred, having predeceased him in death. Three sisters, Mrs. Samuel Skyles of Wellston; Mrs. Minnie Geiger Jackson; Mrs. Elizabeth Bates Pyro, and three brothers, Earl Jackson; William Vega, and Alonso Baker, of Cincinnati. Funeral services were held Friday afternoon in the Christian church.

Mrs. Nancy Stewart

(Ironhton) The funeral of Mrs. Nancy Stewart was held at the home of George W. Trumbo, below Hanging Rock, this afternoon at 2:30 o'clock, with burial in the Trumbo lot at Woodland cemetery. Rev. Carey and Rev. Lamb had charge of the services. Mrs. Stewart is survived by four brothers: William, of Greenup; Andy, at Franklin Furnace; August and Fleming Days, at Willard, Ky. One son, Kelly Stewart, of McCook, Ky., and a number of grandchildren and nieces are also bereaved. Pallbearers at the funeral were Frank Boynton, Arthur Goddard, U. T. Drummond, Henry Helmer and G. W. Davidson.

Perel Funeral

Funeral services for Louis C. Perel, 220 Court Street, who died yesterday afternoon, were conducted Thursday afternoon at 2:30 o'clock at the state home, with Rev. W. H. Giesler officiating.

Mrs. Fred Winter sang beautifully, with Mrs. Gen. Kath as accompanist. Members of the various orders in which the deceased was a prominent member attended the last rites, and many lovely floral offerings bore witness to the place he held in the community. Pallbearers were: Dr. Joseph Gill, George Kath, O. H. Colley, Otto Laufer, William Burt and John Carroll. Interment was in Greenlawn.

GIVES HUSBAND TO ANOTHER

Mrs. Mabel Lynn, 19, of Chicago, is going to give up her husband to "the other woman." William Lynn did not bother to divorce his 19-year-old wife when he "married" Mrs. Nellie May Smith, 45. Now Mabel is willing to give up Lynn. "Because," she says, "he is a treasure. I have years yet to live. I am young. But she is growing old."

Americans Are Held Prisoners By Russians

PETROPAVLOVSK, SIBERIA, October 24.—(By the Associated Press)—After a tempestuous voyage, the Soviet Russian transport Red October, arrived here today from Wrangell Island, with Charles Wells, of Detroit, Mich., survivor of the expedition which Vilhjalmur Stefansson took to the island a year ago, and with 12 Eskimo members of the expedition who are American citizens.

Professor Davidovo, chief of the Russian expedition, explained that Wells and his Eskimo companions were taken off the island because they had no desire to remain, and because they had no permit from the Soviet government to live or hunt there.

During the survey of Wrangell Island, according to M. Davidovo, the Soviet expedition found the grave of Harold Noise, who perished there and also found the flag pole on which the British flag had formerly flown, having been run up to claim British sovereignty.

Members of the Russian expedition constructed a new pole on which they hoisted the red flag in the name of the Soviet republic.

According to Professor Davidovo, Wells and his companions attempted to flee when they caught sight of the red flag over the island, fearing they would be cast into prison if captured. Their alarm was dispelled, however, when the Soviet officials assured them they did not intend to harm them.

The declaration of Professor Davidovo, that his party had found the

Major Louis F. Korth, Well Known German Editor Found Dead in Bed; Was in Second Bull Run Battle

Death has stilled the gifted pen of Major Louis F. Korth, former well-known German editor and one of the city's best known and highly regarded citizens.

He was found dead at 2:30 a.m. yesterday in his home, 1528 Summit Avenue, where he had resided during declining years. Coroner Virgil Fowler, who was called, attributed death to a cerebral hemorrhage.

While he had not been seriously ill, Major Korth had been in failing health for sometime. His familiar figure had been missing in the business sections for sometime, as when health permitted he always enjoyed commanding with his countless friends. He was a very able writer, and news of his passing will occasion general regret. He figured prominently in many of the important battles of the Civil War.

Major Frederick Korth was born in 1844, at Stettin, the largest seaport of Prussia. His father's name was Fred W. Korth and his mother's name was Amelia Geslant. His mother was descended from French Huguenots, who had located in Pomerania in 1851. He was educated at the Ecole Francaise in Stettin and learned the French language as well as his mother tongue. At nine years of age he attended the City Gymnasium and at fifteen years of age the Nautical

Academy at Stettin, until he was seventeen years old, when he came to the United States, having fixed on Cincinnati as his destination. In

Germany he had learned the English language. His father was a ship hauler at Stettin and many English and American sea captains did business there. He was the only one of his family of six brothers and a sister who ever emigrated, though his brothers visited this country. He landed in New York in 1890, and took up newspaper work.

At Gettysburg his command fought along the Mummasburg Road on the first day of July, 1863, and captured forty men of Rickett's Division. He was sent back with a guard detail in the afternoon, but the rebel prisoners got away in the melee in the town and he rejoined his command that evening at the cemetery gate. During Early's attack on the Federal right center late on the afternoon of the second day his command went to the support of Rickett's and Weitzell's Batteries. During the night of the same day, they were rushed to the right of Culp's Hill to the support of Gen. Green and against Johnson's attack on the Federal extreme right. In the afternoon of the third day, his command was subjected to the terrific concentrated fire of the entire rebel artillery on Cemetery Hill during Pickett's charge. [Mr. Korth's two year] time expired on July 8, 1863, but he remained with the command during the pursuit of Lee as far as Warrenton, Va.

He then concluded to go to Cincinnati and remained there until Kirby's raid, when he assisted in laying out one of the redoubts south of Covington, Ky. He fell in with the 16th New York Artillery and enlisted in Company G for three years. Soon after he was sent to Gloucester Point at the mouth of York river. In the spring of 1864, his battery joined the army of the James in the active campaign on Richmond under Butler. He was at Drury's Bluff, Dutch Gap Canal, Fort Harrison, Fort Brady, Darbytown, etc. In December, 1864, he was attached to the staff of Gen. Weitzell as topographer and served in this capacity until Grant's finishing campaign against Richmond. He went up to Richmond with Battery C, 3rd R. I. Artillery, on the morning of the 3rd of April. He was discharged late in July, 1865.

In October, 1865, he went with his former captain, who was appointed Indian Agent to Fort Smith, Arkansas. In the fall of 1866, he located at Quincy, Ill., and there took up the editorial charge of The Daily German Tribune. He remained there seven years, and in St. Louis one year, where he worked on both English and German dailies with Carl

Schurz and Joseph Pulitzer. In 1873 he visited Germany and resided there and in Liverpool, England, about one year. In the fall of 1875 he returned to the United States for the Centennial Exposition, and took an editorial position on the Philadelphia Daily Democrat where he remained ten years. In 1885 he was called to Cleveland, where he edited the German Daily Worcester four years. In 1890 he went to Springfield, Ohio, and started the Adler, Republican. In 1895 he returned to Cleveland and took charge of the Cleveland German Post and Press (Republican) and published and edited it until 1900, when he came to Portsmouth and purchased the Correspondent.

After the 1913 flood he righted affairs in his printing plant and published one edition, after which he

retired.

Mr. Korth was married the first time in 1870 to Rose Lambur of Quincy, Ill. He had two sons by this marriage: Frederick at Tacoma, Washington, and George, connected with a New York publishing house.

Both died some years ago. His first wife died in 1878, and he was married again in 1886 to Caroline Raft, at Cleveland, who sur-

vived him.

Also left to mourn his death is a daughter, Mrs. Robert Townsend, and grand-daughter, June Ann, of this city, and a sister, Miss Martha Korth, who is living in Italy.

Major Korth enjoyed a four-months' trip to Europe in 1908, when he visited many of the important points of interest in that country.

Since his retirement in 1913 he had spent most of his time about his home, giving hours to reading. He was known as one of the best posted citizens on any subject of current news and knew history equally well.

Major Korth was a valuable addition to any community. With all his acquirements and experience, he was a gentleman of modest demeanor. His education fit him well for the position he held.

Funeral services are to be held sometime Monday, with burial in Greenlawn.

Among the great men of America, the late Theodore Roosevelt must be accorded high rank. In the realm of character and achievement his place is unquestioned. On Oct. 27th we will celebrate his 86th anniversary. Rev. Bright will deliver a special sermon Sunday morning on the theme: "The Faith of Theodore Roosevelt."

Final Tribute Is Paid To E. D. Funk

Slain While At His Post; Masons Attend

Funeral services held this afternoon for Edward D. Funk of New Boston, who combined in sending the wealth of these tributes testifying to the high esteem in which he was held in the community.

More than a hundred automobiles carried the friends who attended the last rites at the church and the services were necessary to carry the

flowers to the church and cemetery, the wealth of these tributes testifying to the high esteem in which he was held in the community.

When on the warpath, the old plains Indians often boiled their food in the skin of a buffalo.

After retiring from his work as a gardener at the age of 70, a man in Sunbury, England, took up cycling and rode 46,000 miles before he died.

Two Men Drown When Skiff Is Drawn Into "Bear Trap"

ASHLAND, Ky., Oct. 24.—Maurley Clark and Wayne Ferguson, workmen on the Ohio Dam No. 20, near here, were drowned today when their skiff was drawn into the "bear trap," known as the "bear trap" and scattered to pieces. The men were called

out at 3 o'clock to lower the gates which control the pool. The river was overhanging by a dense fog and it is believed that after raising the first gate they lost their direction and rowed back into the passage where the swift current drew them into the rapids.

Landis Reserves Decision

CHICAGO, Oct. 24.—(A. P.)—Kenesaw M. Landis, baseball commissioner, said today that the testimony of Ory Dolan and Jimmy O'Connell, members of the New York Giants involved in the bribery scandal preliminary to the world's series would be received whenever in his judgment it

would serve a useful purpose in clearing up the situation.

Commissioner Landis declined to say whether Dolan and O'Connell had been placed in the same class with the members of the Chicago White Sox who were put on the ineligible list for conspiracy to throw the world's series of 1919 to Cincinnati.

Pepgen at Fisher & Streich's Wins New Friends Every Day

Each day continues to produce new evidence of the value of Pepgen, the famous herb medicine sold at Fisher & Streich's Pharmacy.

"For months," said Mrs. L. Seidel, of 519 Harvard street, Portsmouth, "I did not know what it was to get a good night's sleep. I kept on getting worse and worse. My appetite became so poor that I was not eating enough to keep a bird alive."

"The least excitement or noise would upset me, and my nerves were continually on edge. Then I would have bad headaches."

"I had heard so much about Pepgen, but I did not think it could help

me."

"Finally, however, I went to Fisher & Streich's and got a bottle. The very first day after I started taking Pepgen I felt better, and each day after that I continued to improve."

"Now I am in splendid shape. The credit is all due to Pepgen. I hope every woman in Portsmouth who is suffering like I did will give this medicine a trial."

Pepgen is packed in a white and blue carton and may be obtained in Portsmouth only at Fisher & Streich's; Kelso's Pharmacy, New Boston.—Advertisement.

CHICAGO MAROONS ARE OFF FOR COLUMBUS; PLAY OHIO STATE TOMORROW

CHICAGO, October 24.—Hopes and fears of their supporters followed three western conference teams today, as they migrated into enemy territory to stake their future as leading title contenders.

Chicago went to Columbus as the guest of Ohio State, determined to add to its prestige as the leading disputant of Illinois' title claims. Ohio was equally as anxious to preserve its record of not having been scored on this season. Both squads were in excellent condition.

Minnesota, en route to Iowa City to engage Iowa, halted at Cedar Rapids for a final workout. The squad was gloomy after only slight improvement during the week's training and because of injuries to the regulars, Iowa's bag of tricks was swelled with new aerial plays during practice sessions and the Hawkeyes hoped to advance their standing, so far marked on the debit side with 0-0.

At Jackson, Mich., the Ann Arbor-bound Wisconsin Badgers paused for practice today to complete preparations for Michigan tomorrow.

'Coach' Yost's reorganized Michigan eleven, with Captain Steiger at quarterback, presented a fighting front, but doubt whether new plays would work well in view of the changes was expressed.

Northwestern ended its arrangements for the Michigan 'Aggies, who arrived in Evanston in time for a workout today.

"At Illinois," invited by DePauw, interest centers on performances of other conference teams yet to engage the Illini. Iowa, next opponent of Illinois, will be given particular attention.

My Word! This Is a Real Ball Game, Don't You Know

LIVERPOOL, Oct. 24.—(By the A. P.)—A crowd of more than 2,500 Thursday witnessed the opening European exhibition game between the New Chicago White Sox and the New York Giants. The Sox won 16 to 11. The game was played at the Everton football grounds.

This is the way a British press agency described the game:

"Many who had not previously witnessed a baseball game were as bated by the prodigious hitting of the American batsmen, the ball frequently falling into the stands. The play was exceedingly fast, but smart fielding of the Chicago side was the downfall of the New Yorkers. The latter held the lead until the sixth inning, but the Sox gathered four runs in the sixth to lead by 7 to

"The seventh inning gave the Sox the most commanding lead of 16 runs to seven, but they failed to increase this in the following two innings where the Giants put on four additional runs to be beaten by five runs. Most of the Sox playing at left field made some wonderful catches in the outfield. On one occasion he had to leap over the barrier in an attempt to hold the ball."

"Ruel was the outstanding batsman. He often drove the ball among the spectators in the stands. Knapp, at right field also played a fine game, while Robertson was the best of the pitchers."

The score by innings:

Giants 16 131 113—11

White Sox 10 004 800—10

Jungle Imps Here Sunday

When the Smoke House football team meets the strong Jungle Imps team, of Columbus, here Sunday they will go up against one of the strongest teams in the state. The Jungle Imps have defeated such teams as Steubenville, who twice defeated the Akron Mutes.

In the game Sunday the fans will have a chance to see the Portsmouth stars in action against such stars as Mose Solomon, one of the fastest professional players in the state.

Forty teams of five men each, and fifteen teams of six women each, will start out Tuesday morning and hope to have the entire sum subscribed within three days. The various luncheon clubs of the city will back the work of the men's teams and the Business and Professional Women's clubs will sponsor the women's activities during the drive.

Members of the committee, meeting last night, expressed the belief that the seven organizations which have shared in the chest during 1924 have done such constructive work in the community that everyone will welcome the opportunity to contribute to their work for 1925.

"Made Portsmouth a better community for all," the chest asks, and for business reasons and real efficiency Portsmouth will respond to this voluntary tax and fill the chest to overflowing.

STOCK PRICES CONTINUE TO DISPLAY STRONG TONE

Market Featured By Heavy Accumulation Of Selected List of Coppers, Oils Motors

NEW YORK. Oct. 24.—Stock prices continued to forge upward today despite spasmodic buyer selling and profit taking. While buying was spread over a broad list, motors, coppers and rails gave some of the best exhibitions of group strength. The closing was firm. Sales approximated 950,000 shares.

NEW YORK. Oct. 24.—Stock prices displayed a strong tone at the opening of today's market which was featured by the heavy accumulation of a selected list of copper, oil and motor stocks. American Smelting climbed 14 points to a record 1924 high at 21½, and Maxwell Motors A and B touched new peaks priced at 63½ and 21½ respectively. Nash Motors and U. S. Cast Iron Pipe advanced 2 and 1½ points respectively.

The upward movement assumed broader proportion as trading progressed with the best buying in the industrials and specialties. Nash Motors extended its early gain to 3½

points. General Electric to 2. Fleischmann advanced 2 points to a new high peak at 78½. Other stocks to sell a point or more above Thursday's closing quotations were Baldwin, Central Leather preferred, Mack Trucks, Rutland preferred, Texas and Pacific and Pacific and New York Air Brake A, the last named at a new year's high. One of the interesting features of the railroad group was the demand for the ordinarily inactive Atlanta, Birmingham and Atlantic, which advanced ½ to 2½ on rumors of its merger with the Seaboard Air Line. Foreign exchanges opened steady.

The main trend continued upward throughout the morning. The rapidity with which some stocks advanced in a small turnover indicated a scarcity in the floating supply at current levels, which probably accounted for some active short covering in various sections of the list. New favorites were brought forward in the railroad list. Chicago and Eastern Illinois preferred rising 3½ points and Rutland preferred 3, the latter at a new high. Bethlehem Steel common was strong, indicating that the poor quarterly report had been fully discounted, but the preferred issues were heavy. American Tobacco issues also were in supply while American Woolen preferred broke through its previous low. U. S. Cast Iron Pipe, Central Leather preferred, U. S. Alcohol and Goodyear preferred extended

their gains to 2 points or more while St. Joseph Lead, International Nickel and Kansas City Southern were added to the list of new 1924 highs.

Cash money renewed at 2 per cent.

THE GAME OF BLUFF

THERE is an insistent and persistent effort on the part of all Republican agencies to create the belief that Coolidge's election is a foregone conclusion.

This is merely the strategy, so called, of their campaign. Neither at Washington, nor anywhere else, is there any such conviction.

Inside information is that the Coolidge managers are scared out of their boots. They confidently admit that Congress is lost to them, and they are desperately hanging to the hope that their fetish, "Coolidge luck," will save them the presidency.

It is practically conceded that LaFollette leads Coolidge in nine western states and the Democrats have the better chance in New Jersey, Rhode Island and Indiana. Notwithstanding all the bluffing, and the claiming Davis is considered to have more than an even show in New York, with more than a chance in Illinois.

All Republican claims are based upon their own assumption that Democrats are going to desert Davis in shoals and vote for either Coolidge or LaFollette. Why should any Democrat vote for Coolidge in preference to Davis? Every Democrat is proud of both the ability and character of his party's nominee, regards him as infinitely superior in every respect to either of his opponents, and is too sensible to be shaken in his loyalty by the fake claim that his party hasn't a look in.

It is ridiculous to assume that LaFollette is going to draw more votes from Davis than from Coolidge. All the circumstances point to exactly the contrary. LaFollette is a hotly Republican, his candidacy is a protest against the control and policy of the Republican party, as directed by the agencies that are back of Coolidge.

Republican predictions contradict themselves, for while making it they admit that LaFollette's strength is in Republican states alone, such states as Wisconsin, Michigan, Iowa, Minnesota, the Dakotas, California and Washington. There is absolutely no talk of him having a show in such Democratic states as Georgia, Alabama, the Carolinas and Texas. It is the universal opinion that in the doubtful states of Missouri and Oklahoma, he will help rather than hurt Davis. And just keep this in mind: In the states where there is always a close vote, though ordinarily Republican, there is going to be a tight vote. Take for instance, Ohio. Here the cry of a full vote had its noisiest echo, but the registration shows a big decrease below that of 1920 and unless the people of the cities are registered they can not vote.

A light vote inevitably means that the heaviest of strong-party suffers the most.

Trying to delude Democrats with the bald assertion that Coolidge has everything and at the same time trying to scare them by fear of LaFollette's election is a cat that won't jump.

5 Killed, 5 Hurt On Construction Work

YOUNGSTOWN, Oct. 24.—Three men were killed and five others injured, one probably fatally at about the same hour late yesterday while working on two buildings under construction in different parts of the city.

Two of the dead, Daniel Celan, and Victor Mateman lost their lives when with five other laborers, they were buried under tons of debris at the site of the new First National Bank building when a wall toppled over.

Warren Carlson, 24, a carpenter died half an hour after falling from a scaffold upon which he was working on a new house.

Cranes were necessary to remove large parts of 15 foot walls so workmen could dig their companions from the debris at the bank building. Celan was crushed to death. Mateman died in a hospital about an hour and a half after the accident without regaining consciousness.

CINCINNATI, Oct. 24.—Two men engaged in digging a sewer lost their lives when the bank caved in late to-

Miner Is Killed

JACKSON, Oct. 24.—Chas. West, 35, father of four children, was instantaneously killed last evening in a slate fall at the William McDonald mine, near this city. The fatal accident was the second to occur in mines in this county within a short time, and both mishaps occurred just as mines were closing down for the night.

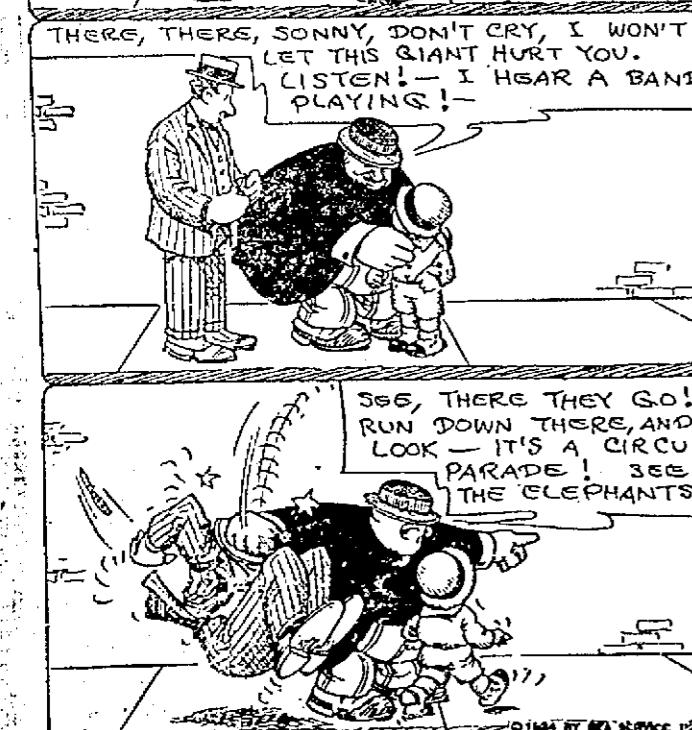

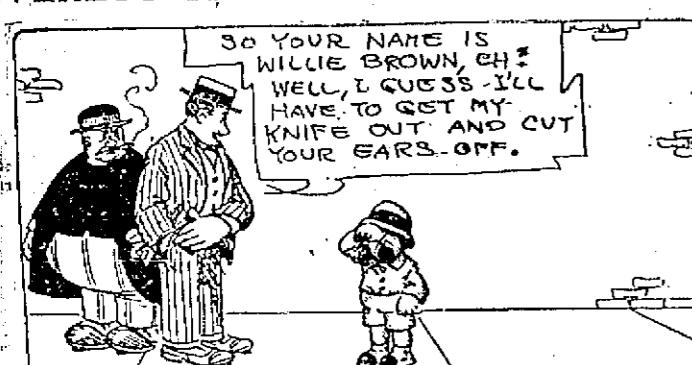

Mr. McDonald and Frank West, brother of the victim, narrowly escaped injury, in the slate fall.

WOMAN BADLY BURNED

CINCINNATI, Oct. 24.—Mrs. Albert A. Stanley, 35, was probably burned to death today in her yard of her home when her clothing took fire while she was burning rubbish and autumn leaves.

NEW YORK DAY-BY-DAY

BY O. O. McINTIRE

NEW YORK, Oct. 24.—Thoughts while strolling around New York: Prussian pompadours are coming back. The Eve Costume Shop. Pass the fig leaves. Lloyd Hamilton: He's come looking off the screen. One of the noted spenders of Orangeade Gulch—a chiroptist.

Why do most chiroptists wear Van Dykes? The only New Yorkers who irritate me are the Barrymores. Whatever became of the women's skirt that laced up the back like a football. A flood of new stucco movie houses. There's Theodore Dreiser.

The self-conscious aloofness of Belasco. His head seems to be knocking the stars. A half dozen flappers in half stockings. No wonder boys are stealing the plows. Echo of the past—a Prince Albert coat and white lawn tie. Must be a congressman or a lecturer.

Snappy box contents rapping for devilish doctrines. A 50 cents meal, restaurant offers hors d'oeuvres. The site of a famous brothel is now a religious book shop. The world grows better. A bunch-backed man gazing at gargoyle.

A man's shampoo parlor conducted by women. Wonder if there are still female barbers. Corinne Griffith. Broadway ringing w/ rehearsals for winter. Julian Mitchell, the old Roman of the stage directors. And he's stone deaf.

It must be tough for an actor to be hard of hearing. The banting crew in front of the Palace. Wish Frank Shuttles would send me some more mugs. Lupino Lane. A buck dancer who wears a monocle. He had a spotless life. As a joke he sent this following telegram: "All is discovered. Fly at once." That was six weeks ago and the friend has never been seen in his community since the arrival of the telegram. At least that is the story they tell.
